

Dear Hiring Manager

I am writing to enthusiastically recommend Darius Quick for any position as a software engineer. I have had the pleasure of being Darius' professor in his last year for the Full Stack Development I course at Southern New Hampshire University.

Darius consistently demonstrated exceptional technical skills throughout the course. In all projects he designed and implemented a complex full stack web application using the MEAN stack showcasing his strong grasp of web technologies. He also exhibited strong problem-solving abilities by effectively debugging and optimizing the system. He consistently achieved high grades in all programming assignments and actively participated in class discussions.

I am confident that Darius has the necessary skills, knowledge, and drive to excel in any company and contribute meaningfully to the field of software engineering. I highly recommend him without reservation. Please feel free to contact me if you require any further information.

He is a very forward-thinking individual person as well. He has high intellect and great character as well. The combined strengths will make him an asset

Sincerely,

Tenorio Powell

Professor
